POSTDOCTORAL POSITION IN ORGAN-SPECIFIC LYMPHATIC VASCULATURE FUNCTIONS IN HEALTH AND DISEASE

POSTDOCTORAL POSITION is immediately available to follow up on our recent published work identifying that lymphatic-secreted signals are required for organ growth and repair using a variety of available mouse models (<https://www.nature.com/articles/s41586-020-2998-x>)

Highly motivated individuals who recently obtained a PhD. or MD degree and have a strong background in mouse cardiovascular, molecular and developmental biology are encouraged to apply.

For information about our lab see:
